Alexander, G. V.	17
Ali, M. A.	83
Bernardis, Lee L.	263, 273
Bird, Luis	97, 165
Brown, E. H.	41
Carlsen, E. N.	17
Carmack, C. R.	17
Carmon, J. L.	105
Coulombe, Mary J.	243
Diller, I. C. (Book reviews)	371
Falk, Gretchen J.	291
Fardon, John C.	127
Fox, M. W.	135
Funaoka, Koji	97
Gabbiani, Giulio	213
Golley, F. G.	105
Gregory, P. W.	191
Hancock, R. L.	251
Hennessey, T. G.	17
Hori, Michiteru	165
Julian, L. M.	191
King, Robert C.	41, 291, 325
Koch, Elizabeth A.	325
Lahtiharju, A.	221
Lauber, Jean K.	179
Lehoczky-Mona, Judith	143
McCandless, Esther	143
McCandless, Ruth	39
McKee, D. C.	257
Miller, Elizabeth E.	167
Miller, R.	257
Munn, R. J.	29
Okunewick, C. R.	17
Pahnish, O. F.	233
Powella, Rita	225
Poydock, M. Eymard	127
Räsänen, T.	221
Ray, Earl E.	283
Roubicek, C. R.	157, 233
Rubnitz, A. S.	257
Saelhof, C. C.	97, 225
Schjeide, O. A.	17, 29
Selye, Hans	213
Shutze, J. V.	179
Skelton, F. R.	263, 273
Sokoloff, Boris	97, 165, 225
(Editorial reviews)	29, 113
(Literature reviews)	12, 178, 248, 370
Spencer, R. P.	91, 243
Takeuchi, Yoshiichi	225
Taylor, R. L.	157, 233
Teir, H.	221
Toyomizu, M.	97
Tuchweber, Beatriz	213
Tyler, W. S.	191
Wilkens, M.	17

Subject Index, Vol. XXVIII, 1964

	Page
Achondroplasia	
bovine	194
genetic relationships of	203
Achondroplasia in non-dwarfs	201
Adrenal regeneration and hypertension in rats	273
Algal extractives, effect on tissue growth	145
Allometric organ growth analysis in rats	273
Aloifoline	165
effect on tumor growth	166
Antidiuretic hormone, hormone-releasing effect	263
Anti-tumor factors in *Chelidonium majus*	225
Ascites tumor fluid	167
electrophoretic studies of	167
Biological activity of serotonin	113
Body and brain weights of dogs at different ages	140
Bovine achondroplasia	191
classification of	195–197
anatomical criteria for	198
Brain growth in two breeds of dogs	137
Brain weight and total body weight in dogs	138
Calcergens	216
attachment to mast cell granules	216

Anti-tumor factors in *Chelidonium majus*	225
Ascites tumor fluid	167
electrophoretic studies of	167
Biological activity of serotonin	113
Body and brain weights of dogs at different ages	140
Bovine achondroplasia	191
classification of	195–197
anatomical criteria for	198
Brain growth in two breeds of dogs	137
Brain weight and total body weight in dogs	138
Calcergens	216
attachment to mast cell granules	216

	Page
Calcergy	213
passive transfer of	214
Calciphylaxis	213
Cancer of the lung	1
endocrine and genetic factors in	1
Canine brain, post-natal growth of	135
Carbohydrate analysis of ascites tumor fluid and host sera	171–175
Carrageenan	143
active growth factor of	143
collagen yields from	147
kappa fraction	148
lambda fraction	148
Carrageenan stimulation of connective tissue growth	143
Cell density in frontal cortex	139
Chelidomine	227
crude water extract of	227
crude alcoholic extract of	227
methanol extract of	228
Chelidomine, effect on tumors	225–229
Chelidonium alkaloids as tumor inhibitors	230
Chick erythrocytes	26
morphology at different stages	27
Chick weight at hatching	183
Chicken embryo extracts	257
influence on growth of Rous sarcoma	260
Chromatin bodies in nucleated red cells	37
Cigarette smoking and lung cancer	9
Compound egg chambers in *Drosophila*	58
Cones	84
number in salmon retina	84–86
Connective tissue growth	150
stimulation by galactans	150
Corneal epithelium, effect of tumor on	127
Corticosteroids, effect on DNA synthesis	221
Cortisol, effect on thymidine in mouse stomach tissue	223
Cytoplasmic hematin	17
synthesis by erythrocyte nuclei	17
Dexamethason, effect on DNA synthesis	222
DNA synthesis in mouse organs	221
Drosophila melanogaster	41, 291, 325
developmental genetics of	291
fes mutant in	325
tiny mutant in	291
Egg chamber of *Drosophila*	41
formation of	62
Egg chamber polarity	76
Egg chambers in *fes* mutant	328
distribution of pores in	344
ring canals in	345
Electron microscopy of embryonic erythrocytes	37, 38
Electron microscopy of *Drosophila* mutants	317, 321
Electrophoretic comparisons of fluids and sera of tumor-bearing mice	169–170
Embryonic synthesis of hematin	17
Endocrine factors in lung cancer	1
clinical	6
experimental	4
Erythrocytes	
chick	17, 29

Page

rabbit 30
nucleated 37
Fes mutant in *Drosophila* 325
egg chambers in 325
germarium in 333
nurse cells in 341
tumor production in 342
Fetal weight 91
versus gestational age 243
Follicle cells in *Drosophila* 361
cytology of 315
height in *tiny* mutant 294
migration during oogenesis 305
Galactans as stimulators of connective tissue growth 150–152
Genic factors in lung cancer 1
Genic influence on birth rate in mice 108
Germarium, *Drosophila* 333
morphology of 62, 333
in *fes* mutant 333
Gleditschia triacanthos 98
alcoholic extract 98
effect on tumors 101
alkaloid (triacanthine) of glucocidic fraction 98–99
effect on tumors 101
pigment of 98
effect on tumors 101
Growth
allometric 273
analysis in rats 274
effect of algal extractives on 145
of adrenal-enucleated rats 274
of connective tissue 150
of embryonic chicks 179
of ganglion cells in retina 84–85
of newborn mice 110
genetic, maternal and environmental effects on 110
of rats at two temperatures 157
of salmon 83
of weanling rats in relationship to adult size and temperature 233
tumor 166, 225
effect of aloifoline on 166
effect of Chelidonium on 225
Growth curve of rat 234–240
Growth curve of human fetus as a function of weight percentile 245
Growth influencing factors in embryonated egg 254
Height-weight relationships in human fetus 91–92
Hematin
intranuclear synthesis of 38
synthesis in chick erythrocytes 17
in adult erythrocytes 29
Hemoglobin synthesis in nuclei and cytoplasm of rabbit erythrocytes 39
Influence of light on eye development in chicks 185
Inorganic phosphorus in rats treated with pitressin 266
Iron, radioactive 25
uptake by embryonic erythrocytes 25
Light
fluorescent
effect on hatching curves 188

incandescent
effect on hatching curves 189
influence on growth of chick embryos 179
influence on hatching curves 182
measurements during experimental incubation 186
Linear growth rate in *Peromyscus* 107
Maternal effects on birth weight in mice 110
Mastocalcergy 216
Mitochondria, role in hematin formation 38
Mitosis in corneal epithelium 132
Morphology of *Drosophila* egg chamber 45
Nuclear organizers of trophoblast nuclei 251
Nucleolar numbers in embryonic trophoblasts 255
Nucleolus organizer function 255
Neuro-ontogenesis during post-natal growth of the dog 135
Nurse cell nuclear volumes 53
Nurse cell cytology in *Drosophila* mutant 319
Nurse cells in *Drosophila* egg chamber 41, 42, 56, 341
Nurse cells in *fes* mutant
differentiation of 344
Oocyte cytology in *Drosophila* mutants 354
Oocytes in *fes* mutant 320
Oogenesis in hemizygous *Drosophila* mutants 354
Oogenesis in life cycle of *Drosophila* 74
Oncolytic antibiotic from *Yucca* 165
Oncostatic factors in *Gleditschia triacanthos* 97
Peromyscus polionotus 105
weights of 105
Pitressin 264
effect on cardiac glycogen in weanling rats 266
effect on plasma inorganic phosphorus 266
effect on retarded rats 267
Pituitary glands
role in adrenal regeneration 278
Protein content of ascites tumor fluid and host sera 171–175
Protein synthesis 255
correlation with increases in nucleolus-associated chromatin 255
Protopine, effect on tumors 225, 229
Rabbit erythrocytes 30
uptake of radioactive iron by 30
Rats
adrenal regeneration in 273
allometric growth analysis of 273
growth curve 234–240
Retina, behavior during salmon growth 83
Reviews of literature (*Oncologia*) 112, 178, 248, 370
Ring canals 344
distribution in normal egg chambers 50–57
morphology of 49
Rous sarcoma
inhibition by chick embryo extract 257
Salmo salar 83
Salmon, growth of retina in 83
Sarcoma 37, effect on growth of corneal epithelium in mice 127
Sera of tumor-bearing mice 167
electrophoretic studies of 167
Serotonin
biological activity of 113

Page

in inflammation 117
in radiation injury 119
in the carcinoid syndrome 115
oncostatic activity of 113
Serotonin and the endocrine system 120
Statistical study of human fetal weights 91–95
Statistics of rat growth 162
Temperature, effect on rat growth 159, 241
Triacanthine 101
cytotoxicity of 102
Trophoblast nuclei 251
in rabbit embryos 252
morphology of 253
Tumor production in *jes* mutant of *Drosophila* 356
Tiny mutant in *Drosophila* 291
Viruses and lung cancer 2
Weight gain of rats at different temperatures 161
Weight-month relationship in human embryogeny 94
Yucca aloifolia 165
